

Part I – Foundations

1. Introduction: Why Gold Responds to Time & Cycles

- History of gold as “astrological money.”
- Why astro-financial correlations matter.
- Probabilistic vs predictive approach.

2. Methodology of Research

- Data span & source (MCX Gold).
- Explanation of columns: Sun Sign, Moon Sign, Nakshatra, Tithi, Yog, Avastha, Aspects.
- Statistical approach (win rate, % return, volatility ranges).

Part II – Celestial Factors in Gold

3. Sun Signs & Gold Behavior

- Performance of gold when Sun is in each zodiac sign.
- Best and worst Sun signs for long trades.
- Month-to-month seasonality overlap.

4. Moon Signs & Gold Behavior

- Daily rhythm by Moon’s position.
- Which Moon signs favor bullish closes?
- Which Moon signs trap traders intraday?

5. Nakshatras & Gold Volatility

- Ranking Nakshatras by open-to-close probability.
- Top 5 Nakshatras for trend days.
- High-to-low ranges by Nakshatra → volatility maps.

6. Tithis & Gold

- Which Tithis favor longs?
- Which are best avoided?
- Dark vs bright fortnight tendencies.
